## THE NATIONAL CAPITAL.

Secretary Foster Will Sustain the Action  
of Ladies in Quoting Miss Cousins.

The Treasury Department has not yet  
received the April vouchers of Miss  
Cousins as Secretary of the Board of  
Ladies Managers of the World's Fair. All  
the vouchers of the male members of the  
commission have been received, but the  
vouchers for the lady commissioners are  
wanting. The treasury officials are in-  
formed that Miss Cousins refused to sign  
her voucher for fifteen days, holding that  
she is entitled to a full month's salary.  
She says she will send a brief to Sec-  
retary Foster with her account, showing  
that she is still Secretary. Secretary  
Dickenson will, it is said, send in Miss  
Cousins' account up to April 15, the date  
on which she was displaced as Secretary  
of the Board of Lady Managers. This  
will raise the question of the legality of  
the action of the Board of Lady Man-  
agers before Secretary Foster. No doubt  
is expressed that he will sustain the  
board.

The superintendent of the census has  
issued a bulletin on the subject of as-  
ylums for the insane in the United States.  
The total number of insane persons  
treated in both public and private insti-  
tutions during 1889 was 97,533, while  
during 1881 there were 96,263 treated,  
showing an increase in nine years of 41-  
330, or 73.53 per cent. This percentage  
of increase, compared with percentages  
of increase of population, namely 24.80,  
does not indicate an increase in the pro-  
portion of insane persons to the popula-  
tion, but rather a great increase in the  
amount of asylum accommodation pro-  
vided and willingness on the part of the  
public to make use of the facilities pro-  
vided. The actual number of insane in  
the United States cannot be ascertained  
until the work of eliminating all cases  
has been completed. The number of in-  
sane in each geographical division were:  
North Atlantic division, 36,596; South  
Atlantic division, 11,243; North Central,  
28,690; South Central, 7,759; and West-  
ern division, 6,820. Of the 6,820 in the  
Western division, 4,988, or 73.12 per cent.,  
are in California, leaving but 2,222, or  
32.88 per cent., for the remaining States  
composing the Western division.

was started. The Portuguese govern-  
ment guarantees the interest on its cost.  
The road is to be pushed several hundred  
miles farther into the interior.

## PORTLAND MARKET.

Prices of Wheat Still Continue Too High  
for Export Purposes.

WHEAT—The market remains in a dor-  
mant condition. A few parcels are offer-  
ing, but prices asked are considerably  
above an export basis, and purchases,  
only made when urgent wants must be  
supplied, are few and far between. Ship-

meet present and near future require-  
ments, and evince no disposition to op-  
erate unless at concessions, which sellers  
are apparently unwilling to grant. Quo-  
tations under existing circumstances are  
impossible.
